REFERRED BY (How did you hear about us?): \_\_\_\_\_

I give permission to the doctors of Health Centered Dentistry to monitor progress as well as provide therapy, and teach Neuromuscular relaxation therapy techniques (reducing restriction to proper motion) above and below the dental region for the purpose of reduction of dental stress on the musculoskeletal system throughout the body. I understand Dr. Laughlin has continued education and experience in the field of Deep Muscle Therapy and realize the need of this approach for reduction of muscle tension throughout the body including the TMJ. I further give the doctors permission to consult (in regards to my health care) with other health care providers, insurance companies, attorneys, and other professionals who may be able to provide information that may be pertinent to my condition. I also give permission to Health Centered Dentistry to use my Study Models, Photographs, Slides, X-rays, and other case documentation, for demonstration and education purposes which may include published articles, books, magazines, seminars, or multimedia publications. Phone numbers and addresses will not be disclosed without additional consent.
